To: Town of Aurora

Re: Aurora Aquatic Centre Feasibility Study

On behalf of the Whitchurch-Stouffville Swim Club (WSSC), we would definitely support the proposed 50m Aquatic Centre to be built in the Town of Aurora. Our organization would benefit greatly by having this facility available to our swimmers.

We would be very interested in using the proposed facility for the following purposes:-

- Regular weekly usage in a 50m facility to accommodate our swimmers
- Availability to host swim camps during school vacation time
- Training in both 50m and 25m formats
- Participate in other swim meets hosted by other Clubs, Swim Ontario and Swim Canada.

The location of the Aurora Facility would be in close proximity to the majority of our members and would make it relatively convenient in regard to commuting.

We believe that this project would be a great asset not only to WSSC, but to all Aquatic disciplines in the York, Durham, Peel, Halton, Huronia and Toronto areas.

Sincerely,

Nick Rottmann
President & Head Swim Coach
