To: Town of Aurora  
Re: Aurora Aquatic Centre Feasibility Study

On behalf of the Vaughan Aquatic Club we would most definitely support the proposed 50M Aquatic Centre to be built in the Town of Aurora.

Our organization would benefit greatly by having this facility available to our swimmers.

We would be very interested in using the proposed facility for the following purposes:-

- Regular weekly usage in a 50M facility to accommodate over 100 swimmers
- Facility rental capabilities to host invitational swim meets
- Availability to host swim camps during school vacation time
- Usage of 50M and 25M formats
- Participate in other swim meets hosted by other Clubs, Swim Ontario and Swim Canada

The location of the Aurora Facility would be in close proximity to the majority of our members and would make it relatively convenient in regard to commuting.

We believe that this project would be a great asset not only to Vaughan Aquatic Club but to all Aquatic disciplines.

Sincerely,

George Jacobson  
President – Vaughan Aquatic Club
